PHARMACY

where service matters

About Us

We are a family owned business which has been providing pharmacy services to CareHomes for over 20 years in the West Midlands.

We have gradually grown from providing pharmacy service through the traditional pharmacy setting, to specialising in providing service to CareHomes. During this time, we have gained a deep understanding of the requirements of our clients.

We look after a number of CareHomes in the central England area. They range in size from 5 to 120 beds. They all enjoy the same high levels of service.

“providing first class service throughout the year”
